IOF Ban of flourinated waxes:

The IOF Council made the following decision on September 3rd 2022 for a fluor ban in ski orienteering competitions:

- *Based on a recommendation from SOC and to follow up on IOF's sustainability commitment, Council agreed to ban all fluoride waxes for the coming ski orienteering season. The implementation should be done with the proven trust-based system from last season (self-declaration) with sporadic spot checks of materials in use by team and individuals.*

Anti-Doping

Respect anti-doping rules. Participants are obliged to attend doping tests if they are chosen by National Anti-Doping Agency.

Data protection:

With the registration you agree, the organizer saves and uses your data to run the competition and publish and save the race results. Fotos or videos might be taken during competition and prize giving and published as well.

More information to data protection at: www.oefol.at/datenschutz

We wish you a nice journey to Abtenau and are looking forward to seeing you

Roland Kohlbacher
(Head of organizing committee)
